

WISER TAG WRT220-C

Colors available upon special request

DESCRIPTION

Our tracker tags emit an RF signal at customizable update rate, allowing the system to determine real-time location. Attach these tags to nearly any type of asset for accurate identity, location, and movement history information.

FEATURES & SPECIFICATIONS

- Dimensions: 1" x 1.5" (2.54 x 3.81 cm)
- IP67 designed ruggedized enclosures
- Replaceable coin cell batteries
- Tags numbered with unique ID
- Customized update rates up to 8 Hz
- Temperature Range: -22°F to 140°F (-30°C to 60°C)
- Effective Isotropic Radiated Power (EIRP): -41.3 dBm/MHz
- Field strength less than 0.04 volts/meter
- Tags enter power-saving sleep mode when motionless, lengthening battery life exponentially
- Two-way data transmission capability provides status updates in real time even for tags in sleep mode
- Operates at ultra-low power (microwatts) for extra-long battery life (up to 10 years)
- Real-time power updates, alerting user before a battery fails and needs replacement

⚠ WARNING

- This product can expose you to chemicals which are known to the State of California to cause cancer, birth defects or other reproductive harm. For more information go to [P65Warnings.ca.gov](https://www.p65warnings.ca.gov).
- This equipment is not suitable for use in locations where children are likely to be present.
- CE Mark compliance requires NOT orienting the Mesh Hub such that a vented panel is on top.
